

## SCALE YOUR INSPECTION WITH OUR MACHINE VISION SOLUTION

We offer optimized Machine Vision Solutions and are highly accomplished in Custom Automation in the field of Pharmaceuticals, Printing and Packaging, Medical, Food & Beverages, Robotics, and many more.

Our experts understand the application requirements and demonstrate POC (Proof-Of-Concept), and successfully install Vision Systems within the set timeline.

### OUR ACCOMPLISHMENTS

**FREE**  
Technical  
Consultation

**5+ Years**  
Experience

**50+**  
Machine Vision  
Systems

**99%**  
Customer  
Retention

**500+**  
Valuable  
Customers

**EXCELLENT  
BENEFITS  
FOR OUR  
CUSTOMERS**

**Branded Machine Vision Components**

**Warranty Support**

**Quick Response**

**Best On-Site and Off-Site Service & Support**

**Service Agreements**

**Lasting Cooperation**

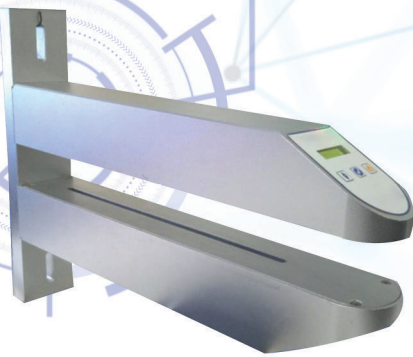

## Top Bottom Camera System for Leaflet Inspection

- High-Resolution, High-Speed Camera System
- Easy and Quick Installation on Insert and Outsert Folding Machine
- Fulfilling Pharmaceutical Application Needs
- Checks Presence of Blank Sheet / Wrong Sheet / Upside Down Sheet / Wrong Orientation Detection
- User-Friendly HMI
- Highly Reliable

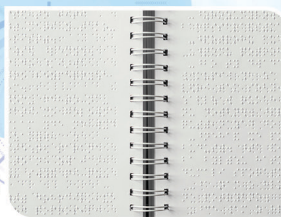

## Pinhole Detector

- Detects Smallest (10-micron) Holes
- 100% Accurate Online Inspection of Foils
- High Speed
- Compact Design
- Simple Calibration and Automatic Operation
- Easy Setup
- Digital Output given to PLC for Rejection Mechanism
- Unbeatable Production Quality and Safety
- Compatible with Wide Range of Blister Packaging Machine

## Braille Detection and Verification

- Deep Learning-Based Approach
- Small Dot Detection
- Identify Unclear Raised Dots

## Label Inspection System

- OCR, OCV
- Reliable Character Reading using Deep Learning Algorithm
- Accurate Reading of 1D, 2D Bar codes, Pharma codes
- Hassle-free Setup
- High-Speed Precision Levels
